LEIDY NATALIA HENAO ROJAS
Software Engineer

✉ nataliahenaor24@gmail.com   📞 +57 300 878 2638   📍 Cúcuta

Industrial Engineer with technical training in Software Programming and experience in full-stack development. I have built web applications from scratch using Java, Spring Boot, Angular, and TypeScript, designing and implementing RESTful APIs. Recognized for strong analytical skills, effective communication, teamwork, and a passion for continuous learning.

Featured Projects

Real Estate App | Bootcamp Power Up - Pragma
Web application for real estate management. Used Hexagonal architecture to maintain low coupling and high cohesion.
Frontend: Angular, TypeScript, SCSS and HTML
Backend: Java, Spring Boot and Spring Security
Database: MySQL
Repository GitHub: https://github.com/nataliahe24/real-estate-app

MyFritterApp | Proyecto Técnico - SENA
Web application for managing product orders. Used MVC architecture to organize the system into layers.
Frontend: Angular, TypeScript, SCSS and HTML
Backend: Java and Spring Boot
Database: MongoDB and MySQL
Repository GitHub: https://github.com/nataliahe24/My-fritter-app
